## PROJECTS

**This, That, or the Other** | <https://github.com/reharr4/Trivia-Game> | <https://reharr4.github.io/Trivia-Game/>

- Timed trivia game with multiple choice answer options. Time will run out whether or not all questions have been answered.
- Created this project from scratch for a homework assignment focusing on timers.
- HTML, JavaScript, CSS, Bootstrap

**CareMinder** | <https://github.com/reharr4/CareMinder> | <https://careminderbc.herokuapp.com/>

- CareMinder is an application that allows caregivers to create a schedule for their clients. The application uses a calendar library to display the information where the caregiver can create patients and assign tasks and bills to keep track of what the patient needs done or paid.
- Collaborated with three teammates to create this application. I focused on the Front End, creating the calendar and caregiver home pages.
- JavaScript, jQuery, Bootstrap, Moment.js, Handlebars, CSS, HTML, Express, FullCalendar, Sequelize, Passport, NodeJS

**Wish You Were Beer** | <https://github.com/reharr4/WishYouWereBeer> |

<https://reharr4.github.io/WishYouWereBeer/index2.html>

- Choose from 3 preselected Nashville neighborhoods to choose somewhere to have a beer. Establishment names and addresses will populate a table once a neighborhood button has been selected.
- Was responsible for the UX/UI of this project.
- CSS, Materialize
